Import Express.

International express collection and door-to-door delivery services coupled with flexible billing solutions for your transport costs.

The ultimate in flexibility and control.

Whether you're an experienced supply chain manager or wholesaler or you just have the occasional item to import, Import Express can help you eliminate the hassles of importing and better manage your costs and suppliers.

Available from or between 214 countries, there's no need for local brokers or forwarders. With just one phone call, you can arrange a collection in Hong Kong and delivery in Paris, while you pay via your New York headquarters in US dollars.

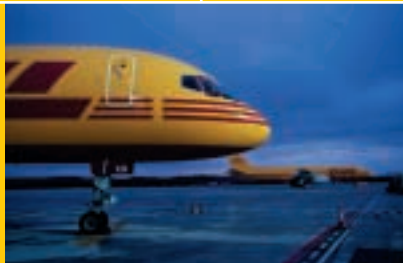

Make things easier and enjoy the simplicity and control of one fixed price, one point of contact and one invoice for all your imports.

The simple solution to truly international shipping.

Whether you need to import a single consignment or manage a number of global suppliers, we know how to keep it simple.

- Choose the time of delivery and rely on the largest international express network. Import Express is available with DHL's international SameDay and all TimeDefinite products
- A single account number gives you global reach and simplifies budgeting and cost control
- More in-house customs expertise than anyone else in the industry means one contact for all your export and import needs
- Up-front pricing for door-to-door delivery means no hidden costs or surprises
- One invoice in your home currency helps avoid currency fluctuation and makes it easier to allocate costs to a customer or department
- Rely on total visibility of your shipments – no matter where they originate or arrive. Access tracking and delivery details from virtually anywhere – via the Internet, WAP, SMS or phone.

The ideal solution for direct distribution.

DHL Import Express lets you deliver direct to any 3rd party or country, eliminating the need for storage and additional legs in your supply chain. That saves warehousing and stock costs and reduces time in transit. Plus, you can offer your preferred terms of trade – thanks to our range of Duty Paid Services.

Shipping tips.

- Open an Import Express account in an instant by contacting DHL Customer Service or your Sales Executive
- Authorise your customers to use your Import Express account by simply sending a standard Routing Order, which you can download from www.dhl.xx
- DHL Customer Service, in the origin country, can assist the sender with all shipping and packaging queries
- Questions about customs regulations or paperwork? Just call DHL Customer Service or try DHL's online Trade Automation Service – the industry's most comprehensive trade and customs information tool.
